EXPERIENCE

Independent Freelance Web Developer | Now

- Web application development with React, Next.js, and TypeScript.

Developer at SOLUMADA | Jan 2022 - Nov 2025

- Design and development of applications tailored to the company's needs.
- Front-end development and optimization of the user experience.
- Maintenance, improvement, and deployment of applications to ensure performance and stability.

Professional Internship - SOLUMADA | Jan 2021 - Feb 2021

Worked on a project called GDPR Program Phase 1. We were involved in developing an application capable of masking specific information in PDF files. The application was built with Node.js using the PDFTron framework.
